

WORKS

Autumn 2005 Edition

Welcome to the WORKS Autumn Newsletter! With this year's racing season winding down, what better time to think about taking care of your prized Mitsubishi. This newsletter will provide you with valuable information regarding recent WORKS news, product offerings and specials. Local customers may also receive our WORKS Service Newsletter.

WORKS values your privacy. Therefore, if you do not wish to receive these updates, simply reply to this email with the word "unsubscribe" in the subject line and we will remove your email address.

News & Events

WORKS is preparing for the upcoming auto show circuit. First on the agenda is the [California International Auto Show](#), which will feature the WORKS Evolution VIII MR as part of Mitsubishi's tuner display October 5th-9th in Anaheim, CA. Shortly thereafter is the highly anticipated [SEMA Show](#) November 1st-4th in Las Vegas, NV. WORKS will again be partnering with Mitsubishi Motors to unveil the all new WORKS TR-Edition Eclipse. Future auto shows will also include **San Francisco, San Jose** and others. We thank Mitsubishi Motors North America for their support and look forward to building upon last year's cooperative success.

Another [MOD](#) (Mitsubishi Owner's Day) heads east to the Normal, IL factory plant on October 22nd. A more centralized location to all of the Mitsubishi owners who weren't able to make the trek out west for the gathering at MMNA headquarters earlier this year. WORKS also plans to have a presence at this event and hopes to see some of you we've only had long-distance relationships with.

Mitsubishi has just released the anticipated [Evolution IX](#) and WORKS is getting ready with your performance needs. A great majority of our products are immediately available with more to follow. We have been decoding the ECU for several weeks (before the vehicle release) and are in the process of deciphering its complex logic. In addition to the current Brain Flash capabilities, we also have control over the new MIVEC features.

WORKS is now expanding our product line to incorporate more of the Mitsubishi lineup (see the following section for details). We have acquired some vehicles for ourselves and have partnered with local owners to engineer and develop these offerings. Expect to see a variety of components becoming available in the coming months.

We would also like to congratulate Michael Santos and the Go Green racing team. Recently they participated in the 2005 SCCA National Championship Runoffs where Mike drove his WORKS-sponsored EVO VIII MR to a top 10 finish in the Touring 2 class! He also was awarded the Sunoco Hard Charger Award for advancing 16 positions during the race!

New Products

In our effort to continuously develop new products for your Mitsubishi, our latest items include:

WORKS [Diverter Valve](#) – features metal construction and stiffer spring to better hold boost.

WORKS [Front Strut Bar](#) – a stiffer and lighter alternative to the EVO original.

WORKS [Ride Performance Springs](#) – now also available for the all-new Eclipse.

WORKS [Rear Swaybar](#) – now also available for the all-new Eclipse.

WORKS [Grab](#) – recently redesigned to accommodate 6-speed models.

WORKS [O₂ Housing](#) – enlarged OEM-style cast unit that retains factory mounting points.

StealthWORKS [Performance Cat](#) – OEM cat modified to accept 3" inlet/outlet.

WORKS recently added the GTSPEC [Trunk Cage](#) to further stiffen the rear of the EVO.

We now carry the Braille [Lightweight Battery](#) – the **lightest** automotive battery available that outperforms its competition.

WORKS also offers Defi's popular BF Amber [Gauges](#) that now read Imperial (US) units.

Upcoming Products

WORKS Specials

October 1st-31st

The WORKS Diverter Valve is still at introductory pricing and we have the Defi D-Gauge on special as well. Get them both before the sale ends!

We're also offering free ground shipping for the WORKS EVO Rear Swaybar and WORKS High Flow Cat.

November 1st-30th

To celebrate the introduction of our new Eclipse lineup, WORKS is offering free ground shipping on the Eclipse SS-I package (Rear Swaybar and the Ride Springs). Order the package and get it delivered to your door at no additional charge.

Be sure to check out the [Specials](#) section of our webstore for more savings. If the item you are looking for is not in stock, WORKS is offering free ground shipping with a 25% refundable deposit on out-of-stock* items.

*Excludes special order items

Discounts

Are you a member of SCCA, NASA, SAE (Society of Automotive Engineers), NorCalEvo, SoCalEvo, Arizona Lancer Club, Northwest Evolutions or North Texas Evolution Club? If so, mention this with your next order and receive 5% off parts** and labor just for your involvement with any of these organizations. If your organization is not listed and would like this benefit, contact WORKS for details.

**Excludes already discounted items, coilovers, wheels, tires, used, and special order items.

This concludes the autumn edition of the '05 Newsletter. Look for the next issue in a couple of months. If you can't wait that long, feel free to contact us with any questions, comments or suggestions.

Stay tuned!!!
